MONDAY, SEPT. 17, 1855.

We find the following in the Louisville Courier of last Saturday:

To show the consistency of the editor of the Journal in taking to task others for advocating emancipation, we will quote briefly from its own columns, and ask the reader to consider carefully its words. On the 23d of Oct., 1848, the editor said:

ALL MEN HAVE A RIGHT TO LIBER-TY, NO MATTER WHAT COLOR.

We have ever looked forward to the day when Kentucky should contain within her bounds no bondmen, and we hope to live to see the light of

such a day.

Many of the best minds of the State are engaged with the subject of emancipation, and they walkexpress freely their opinions, and act freely

We must make up our minds to meet that ques-

tion, for no human power can stop it.

Any person that talks in this manner and still attempts to create the impression that he is a pro-slaveryite, is, to say the least, a fit object for suspicion. Close watching wont hurt him.

We have had the curiosity to look over our paper of the 23d of October, 1848, and we can say to our readers that it does not contain either of the sentiments purporting to be taken from it, or anything bearing the shadow of a resemblance to either of them. The sentiment which the Courier professes to quote from us in all the prominence of large type, "ALL MEN HAVE A RIGHT TO LIBERTY, NO MATTER WHAT COLOR," is as downright a fabrication as ever was perpetrated. We never uttered, or thought or dreamed of uttering, anything of the sort in our lives. We agree with the editor of the Courier that close watching omitted an 0. It should have been 9,000 instead wouldn't hurt us, but we are apprehensive that it might hurt him very seriously. Some editors, conscious that they can't stand watching, seem anxious to avoid it by making themselves not

WOOL AND WOOLENS .- The fact now existing that the wool manufacturing interest in this competition, even with a tariff duty of 30 per cent. on cloths and cassimeres and 25 per cent. on worsted fabrics, is apparent by the closing of many of the wool factories of the country, and few or no new ones being started. In constructing the tariff on wool and on fabrics of that material, there were two powerful antagonistic interests to consult and to reconcile. The sheep grazier argued that he could not afford to import and improve the breed of sheep and quality of the wool without protection from foreign competition of the cheaper raw wools of other countries, and therefore Congress imposed a duty of 30 per cent. on raw wools. The wool grower was then provided for. The manufacturer also demanded protection, and Congress gave him also 30 per cent.; thus he was taken care of. What are the consequences? These duties, although very high, nullify each other. The duty on raw wools raises the price so high to the American manufacturer, both for foreign and domestic wools, that he cannot, even with the protection of 30 per cent., compete with his foreign rivals. This consequently so reduces the demand for home-grown wool for domestic manufacture that the use of it is rendered extremely limited, and as it cannot be offered low enough for export abroad, or otherwise no duty would be wanted upon it, sheep raising, except for the shambles, is not encouraged; and the culture of sheep for wool and the manufacture of the article are both dying out. The matter demands from Congress, apart from politics, earland earnest attention.

There was a row one night last week between the students of the college and the citizens of Princeton, N. J. A constable was dangerously stabbed.

Our correspondent "M. R. M." has RIVER AND STEAMBOAT MASTERS. written a greater quantity of exquisitely sweet and beautiful elegiac poetry than any other poet in the nation:

[For the Louisville Bulletin.] WHEN LAST WE MET.

IN MEMORY OF MRS. ANNE E. JONES, Obt. 23d of August, A. D., aged 36 years.

When last we met! I would recall the time-The beautiful midsummer morning-tide;
The village bells, repeating their sweet chime,
The mirthful children gathered near thy side; Thy fair cheek blossomed, with a dewy glow, Thy golden ringlets wooed the early breeze, And rippled o'er thy floating robes of snow; Thy memory to me is linked with these.

Fond words of welcome at thy cottage door,
The sunny sky, the rose's scented breath,
They keep a charm thy presence to restore,
Linked with life, light, and summer—not with death.

We meet not now—they tell me thou art dead, In thy bright life's midsummer, morning-tide; The golden ringlets from thy temples shred, The fair young children parted from thy side; And thou shalt meet no more the day's fresh prime, And all the glorious tints of earth and sky; Snall list no more the village bells' soft chime

In dying sweetness fainly wafted by.

Dead—in the grave!—and yet with things like these,

The dew of morn, the rose's scented breath,

I link thy memory—with the early breeze,

With life, with light and summer—not with death.

And we shall meet again, untouched by time, And listin Heaven's serenest morning-t de, To sounds more dulcet than the bells' sweet chime-Thy fair young children gathered near thy side; And I shall see thy pure cheek's blossomed glow, Thy golden ringlets floating on the breeze,

And rippling o'er thy stainless robes of snow: To me thy memory is linked with these, And I recall thee, with the dewy morn, The sunny sky, the rose's scented breath; The sunny sky, the rose's scented breath
With blessedness of hope, immortal born, With life, with light and summer-not with death

When, more than all, Prentice turns champion of the faith, and writes lectures on piety, the prospects of the Church are at a low ebb. Democrat.

If the prospects of the Church could stand your sermons, first in the pulpit of one denomination and then in that of another, we guess they are in no danger of suffering from our newspaper articles. The Church can subsist upon wholesome food if it could live with a snake in its belly.

MAN KILLED .- Mr. Woolfolk, of the John Tompkins, has given us an account of the kil ling of a man named Simons in Humphries co., Tenn., on the 6th inst., by a man named Hutton, who is a storekeeper there and is well known here. Simons, it appears, owed Hutton twenty cents, who demanded it, threatening at the same time to shoot S. unless he complied with his request. Simons jumped on a horse and Hutton shot him. Hutton has left for parts unknown.

MAMMOTH APPLE .- Mr. David Henry, of Brandenburg, has sent us an apple which weighs 241 ounces and measures 143 inches in circumference. It is a very tempting apple. In the absence of a better name, Mr. H. calls it the Young American apple. We do not believe that any "old fogy" apple can beat it; let's seesend on your specimens.

On day before yesterday, our people were aroused by the arrival of Co. Manners, who reported that his party of Government surveyors were attacked by a band of Pawnee Loups who broke up his camp and endeavored to steal his mules. In the foray, six of the Colonel's party were separated from their companions, which six have not yet been heard from. The cook, attached to the party, when last seen, was going full on a mule followed by two other mules, and was hotly pursued by several of the Indians. But the Colonel and five of his men escaped and arrived safely at Nebraska City.

MEETING OF THE HORTICULTURAL SOCIETY.

A committee of the Kentucky Horticultura Society assembled at the Merchauts' Exchange Saturday, September 15, President Young in the chair. Geo. Heinsohn, J. B. Anderson, Arthur Peter, John Thatcher, and Capt. Pennington were added to the committee to fill vacancies.
On motion, Dr. Thompson and Henry Nantz

were appointed a committee to solicit and collect plants, shrubs, and flowers from citizens for the yearly exhibition, to commence on the 18th inst., at the spacious building of the Mechanics' Institute, corner of Walnut and Second streets. Henry Nantz was empowered to hire cars and men to collect the plants and return them after the exhibition.

The corresponding secretaries were directed to distribute complimentary tickets to the min-isters of the city; also, to the officers of the Mechanics' Institute and officers of the Southwestern Agricultural and Mechanical Associa-L. WOODBURY EISKE, Recording Sec. Pro Tem

Little Rock Dem., Sept. 4.

The river was at a stand yesterday with 6 feet water in the canal, 3 feet 2 inches over the rocks, and 4 feet in the pass on the falls. It will doubtless be on the rise to-day. The weather is still showery. The Mississippi at St. Louis, was on a stand on Friday, with 7 feet water in the channel to Cairo. The Missouri, Illinois, and upper Mississippi, were all low and fall-

The Cumberland river was falling on Friday evening with 31 feet water on the shoals.

The John Tompkins, from the Tennessee, reports that stream slightly on the rise.

The Little Rock Democrat, of the 4th inst.,

The river has risen some two or three feet but was on Monday evening falling. We expect however quite a rise, as the effect of the rains of the last few days.

The Pine Bluff Republican, of the 12th,

The river in the past week, rose about four feet, but is falling again.

The steamer Midas, which arrived on Friday, towed up the hull of Capt. Shaw's new sternwheel boat from Paducah. Messrs. Roach & Long are building her machinery, and Logan, Strattan, and Veach, of Jeffersonville, are building her cabin.

The steamer Ben. Coursin, which arrived on Saturday, towed up the hull of Capt. Yocum's new sternwheeler, from Dycusburg, on the Cumberland river. Her machinery is also being built by Roach & Long, and her cabins by Mr. McLaren.

The new steamer Col. H, B. Chambers arrived from Cincinnati yesterday morning. She is a beautiful boat. She went over the falls without touching.

The excellent steamer Highflyer is the packet for St. Louis.

The Fanny Bullitt for New Orleans :- This fine packet starts for New Orleans this evening. Her cabin accommocations are unexceptionable and she is in charge of skillful, polite, and careful officers.

Steamer Grapeshot .- This new craft made :

trial trip on Saturday and performed admirably. Capt. McGuire built her for the trade in the interior of Texas, and she appears to be well calculated for it, having great capacity for carrying cotton for a boat of her class, and being of light draught and very strongly constructed. She will make a trip to Memphis, for which port she leaves in a few days. She has a neat cabin, well furnished, and although not large, can accommodate a number of passengers.

Her dimensions are as follows: Length of hull 150 feet, beam 28 feet, and depth of hold 5 feet; two engines of 5 feet stroke, and 15 inch cylinders; two boilers, 24 feet long and 40 inches in diameter; and a doctor. The hull whs built by T. S. Nadel, the machinery by Hewett & Symmes, and the cabin by

Wm. Downs. The painting was done by James Thompson, blacksmithing by H. J. Billings, and Dick Smith furnished tackels, spars, etc. The carpets were supplied by Hite & Small, and the furniture by John Simm.

Capt. McGuire is a young and polite gentleman, and one who is bound to succeed. The Grapeshot, if we mistake not, will prove to be a money-making" boat.

The New York cattle market continues to give way. Wednesday's market is reported as follows by the Tribune:

There was another decline in the price of beef cattle yesterday, if in fact such cattle as most of are worthy of that appellation. those in market The price of such as were really good beef did not exceed 10 cents per pound for the meat, while good fair stock sold much less, running down in the small trash and lower grades to less than 7 cents, averaging upon the 1,900 offered ess than 9 cents per pound net. This is a variation of about 6 cents a pound from the highest market day of last spring; and makes a difference in the cost of beef for one hotel in this city of \$1,000 a week, and a very large difference in the expenses of all meat-eating families, though not in proportion to the cost of cattle now and last May, for the reason that butchers are too apt to be oblivious of the fact that their customers are aware of the fall in prices. The prospect is very fair now that the price of tip-top beef cattle will not exceed 10 cents a pound net this fall upon any fair cash sales in this market, and fair quality of cattle will be sold at 8 cents. Parties can make their minds up to that. The receipts of beeves in the last week were

THE CROPS.—Extract of a letter from a gendeman at Henderson, dated Sept. 10:

The crops are very large, and rather extraor-dinary in wheat, as there are several thousand bushels here for export, which is an unusual thing. Tobacco is quite flourishing, though somewhat injured by the late heavy rains. Hogs rate high and cannot be engaged under \$5.

To the Editors of the Louisville Journal: EVANSVILLE, Sept. 13.

We beg leave to correct an item of news under "River and Steamboat Matters" in your paper of the 12th, that our "wharfboat which aground opposite this place had been floated off by the recent rise." She is still aground, be-sides being well secured to the shore, where she will remain until she is repaired.

MONDAY EVENING, SEPT. 17, 1855.

If the cotton of India should supplant that of the United States in the markets of Europe, the demand for fresh field hands in Mississippi and Alabama will necessarily decline. Providence may, in this manner, be working out a solution of the problem which has baffled human sagacity, and what philanthropy has failed to ac-complish may be brought about by the laws of production and trade. When slavery ceases to production and trade. When slavery ccases to be profitable it will of course be abolished; benevolent minds, therefore, will not deplore prospective decline in the importance of American cotton crop.—Buffalo Com. importance of the

We have never doubted that there were people in the United States whose abolitionism was sufficiently rampant to make them desire the dissolution of the Union, and the destruction of our foreign commerce, or any other commerce, if thereby they could succeed in extirpating slavery. But we had not ranked the editor of the Commercial in that category. We had not learned that his benevolence was so extensive, that he would not deplore the decline of the most important branch of American agriculture if he could in that way bring about the emancipation of three millions of Africans, notoriously incapable of taking care of themselves. We are willing to admit, that, when the slaves do not earn enough to support themselves and their masters, they will be emancipated; but if that does not happen until India cotton supplants the American article, it will be postponed to a period near the day of judgment. The interference of East India-grown cotton in the European markets with American is a thing that we have heard threatened from the days of our boyhood to the present time, and yet the growth and consumption of cotton in this country has increased and is still increasing every year. In the last number of Hunt's Merchants'

Magazine it is said that "recent investigations in England appear to have established the fact that our planters have nothing to fear from the rivalry of the planters in India." The investigations alluded to were set on foot by a committee of the House of Commons, before which the leading men of Manchester were minutely examined. The salient points in the comparison of India with American cotton are these: India is five months' sail from Liverpool; America is one month's. The consumption of cotton in India is so very great that the country cannot more than supply the home demand. India cotton is, for the purposes of the English manufacturer, 20 per cent. inferior in quality to the American. The difference in waste in the best qualities of India and American cotton is 121 per cent. in favor of the American article. The same machinery will produce a larger and better quality of yarn from American than from the best Surat cotton, which is owing to the staple of the American being stronger than the India cotton. Much of the India cotton is so badly cleaned that the loss is excessive.

Painful as these facts may be to the feelings of Abolitionists, it affords us pleasure to chronicle them; and, as the time appears to be remote when the cultivation of cotton in this country by slave labor will cease, we hope they will await, with Christian fortitude and pious resignation, the advent of that "good time coming" when slave labor shall be unprofitable, and when slavery, in consequence thereof, shall be abolished.

A Bogus Insurance Company .- We learn by the Albany (N. Y.) Argus that William Barnes, appointed by the Comptroller to make investigation, reports that the assets of the Nather mass. At the last stage of the excavations, tional Exchange Insurance Company are insuftional Exchange Insurance Company are insufficient to justify its continuance in business in the city of New York, and that, in his opinion, the public interests require the immediate dissolution of said corporation.

He states, that, in order to get up the necessary capital to swear by and get the certificate of the Commissioners allowing them to commence business, they borrowed for a day or two a broker's check of \$150,000. The Comptroller has turned the case over to the Attorney-General.

THE SPEAKERSHIP OF THE HOUSE .- The Washington Star reviews the chances of the several candidates of the opposition for Speaker of the next House of Representatives, and disposes of them by saying that Mr. Collom's defeat, Mr. Haven's position as a repealer of having been driven away by the hostile Indians. the Nebraska bill, which would alienate the Know Nothings of the South, and Mr. Hunt's (of La.) deafness and instability, have left the coast clear for Mr. Humphrey Marshall.

The crops of Cuba of this year will be the largest ever made-it is so stated by persons who are esteemed well posted.

DECLINE OF THE ORDER OF JESUITS .- The Rome correspondence of the Newark Advertiser

I notice by the way, by a recent table of ecclesiastical statistics, that the Order of Jesuita numbers now only 5,510 members, though in its palmy days it boasted of over 20,000. existing number 1,515 are assigned to Italy, 1,697 to France, 1,294 to England and America, 463 to Belgium, 369 to Spain, &c.

Young America .- The Charlottesville (Va Jeffersonian says:

While President Pierce was standing near the hotel at which he had taken rooms, a little chap of a few summers, finding his hat-band un-buckled, went up to the President and accosted him, saying, "fix my hat-band, sir." your name?" said the President. "Debree."
"Do you know me?" "Yes, you are the Presisaid Young America; "fix my hat-band." The President fixed his hat-band, and then Young America went to his play, contented and happy that he too was the President's "peer."

The Oldest Farmer in the World .- Mr. Raggers Bagley has purchased one hundred and sixty acres of land in Minnesota Territory, which he intends settling upon and improving. Mr. Bagley is 107 years old, and is still an active and industrious pioneer, in the enjoyment of excellent health. A patent will shortly be issued to him from the General Land Office.

A Liberty Party State Convention was held recently at Utica. As only about twenty delegates, black and white, attended, we conclude the affair passed off harmoniously. The following ticket for State officers was nomina-

A series of resolutions, embracing the peculiar dogmas of this sect of fanatics, was adopted by the convention.

R. J. Walker has resigned the Presidency of the Texas Western Railroad Company, and Mr. F. M. Dimond, ex-Governor of Rhode Island, now a resident of Texas, was elected to fill the vacancy.

CAT FIGHT .- The Montgomery (Ala) Journal of the 8th inst. says:

We learn that on an evening of last week some alarm was excited at the plantation of Mrs. McCullough, in the lower part of this county, by the onslaught of a ferocious wild cat on some of the people. It seems that the cat sprung suddenly on the back of a woman, tearing her neck and shoulders with its teeth. After much effort, it was beaten off by the negroes, and secreted itself. It was supposed by them, in the gloom, to be a mad dog. The overseer, who had been ill, came out and sent the negroes, with the dogs, to take its track, sup-poing it had gone to the woods. On returning to his house, he was suddenly attacked by the animal in the same way, and, after a long gle, was thrown down. He continued to fight him until the negroes and the dogs came up and despatched the beast, which was found to be a wild cat, of the short tail species, and of large size. The animal was a slut, it having un-doubtedly whelped but a short time previous, and was much famished in appearance, which may account for her unusual ferocity. The overseer was much hurt, being torn and bitten in about seventy places.

VAST MINERAL RICHES OF THE GADSDEN PURCHASE .- Some months since (says the Alta California) we noticed the formation and departure of a company of adventurers in this city for the exploration of the Gadsden purchase. They arrived at their point of destination and discovered, among other valuable mines, the copper one now known as La Mina del Azo, situa-ted about 30 miles south of the Gila river, and 25 north of the new boundary line between the United States and Mexico. Taking formal possession of this, they sent a party back to this city, and furnished such extraordinary statements regarding the wealth of the mine, several capitalists were induced to invest in the matter, and a stock company was formed under the laws of California, with a capital of \$500,-000 in shares of \$100 each. A sufficient amount of the stock was disposed of to raise a working capital, and, thus armed, the party returned with a scientific miner and a comp tent number of workmen. Our informant, who is a member of this company, and one of the original discoverers of this mine, states that operations have doubtless commenced by this time. there in June, and arrived in this city by the Sea Bird last week, from San Diego.

This mine, according to the representations of M. R. Sackett, is one of the richest in the world, and is only one of numerous mines, which, to judge from the formation of the country, are likely to prove equally productive. The vein crops out of the ground for a distance of 100 yards. It is but a few inches wide at the urface of the ground, but increases in width at the rate of an inch to the foot as the vein is followed down. Specimens which we have seen of the ore are heavy with the metal, and pieces of pure copper glitter forth at all points selves, and the only difficulty anticipated by the proprietors seems to be that the ore will gradually disappear and leave the pure metal, which cannot be got out with equal facility and cheap-

ness with the ore. A considerable encampment is formed at the mine, and all the water and provisions are obtained at Fort Yuma, to which point it is also designed to transport the ore and metal for shipment in small river steamers to the Gulf of Cal ifornia, where it will be taken on board and shipped to the Eastern States or England for smelting. The ore is said to be inexhaustible and increasing in richness as it is followed. Not far from this locality is the celebrated Mina de Plancha de Plata, where, as Mr. Sackett states, piece of virgin silver was recently picked up weighing fourteen pounds, and formerly a piece weighing one hundred arrobas, found by Mexican miners. This and other old mines are now abandoned and filled with water, the workmen

By the next steamer from San Diego more additional news may be expected from that section of the country in relation to its mineral wealth. Should the reports prove correct, California will not be long in throwing some of her adventurous population into our newly-acquired teritory, to explore its hidden treasures.

Failure of Mails.—If a mail at any time fail to arrive at the end of a route or at any intermediate post-office where the time of arrival is fixed within the time specified in the contract or schedule, it is expected that every contractor will immediately, by himself or agent, send his excuse to the inspection office, setting forth particularly the cause of the failure. If, after waiting a reasonable time, no specific and sa isfactory excuse is received, it is the duty of the hief clerk to report the case to the Postmaster General for fine. General excuses for such failures are not admitted by the Department. bad roads are alleged, a specific report must be made of what portion of the road was so bad as to obstruct the mails, and what was its peculiar condition. If high waters are stated the cause of such failure, it must be shown what water-courses were impassable; and so of all other excuses .- Washington Union.

Emphasis is known to be of great consequence to a public speaker. Gesture is some-times equally impressive. An anecdote is related of a clergyman who was tormented with a termagant wife. In the course of time she paid "the debt of nature," and her husband personally officiated at her funeral. His speech was devoted in part to "the thousand ills that flesh is heir to," and was concluded by a Scripture quotation. Extending his right hand toward the grave, he said: "There the wicked cease from troubling," and then placing the same hand on his heart, he added, "and the weary are at rest."

[From the New York Journal of Commerce.] A LETTER FROM COL. KINNEY.

SAN JUAN DEL NORTE, Aug. 18, 1855. MY DEAR MAURY: I have just completed the purchase of thirty millions of acres of the most magnificent country in the world-a country which, I venture to predict, will, before many months, teem with the enterprising and industrious masses of the United States and Messrs. Shepherds & Haly have disposed of their entire right, title, and interest in the celebrated "Mosquito Grant" to me for \$500,000, and I shall proceed at once to invite that emigration which is needed for the development of its unequalled resources. There are three hundred miles of seaboard belonging to it, and, further back, an elevated table-land, healthy in climate, and capable of producing every staple of the tropic or temperate zones. Sugar, coffee, tobacco, coehineal, and cocoa are produced in abundance, in addition to the substantial supplies of cattle and grain required by the exigencies of a large population.

Much of the land in the interior along the

banks of the San Juan river, the navigable highway of inter-oceanic commerce, whence pro-duce can be shipped, without change of transportation, to any port on the globe. I need not say anything of the mining resources. The old Californians who have lately been up there, say they are the best in the world, and large acces sion is looked for from their State. of Boca del Toro, toward the southern boundary, which has been opened of late, is so situa-ted, on account of the deep water, that steamships of the largest class can come alongside and load up without further trouble. I hope, therefore that you and your friends may be early upon the ground to share in the prospective advantages of this vast addition to American enterprise. Excuse the haste with which this is written, and believe me, truly your H. L. KINNEY.

Bless the man, how every land where he imagines he has secured "acres" suddenly becomes a wonder of beauty, health, and fertility. And how unceremoniously he bids adieu to one contract to take up another. But does he really suppose that anybody is to be beguiled into emigration to the Mosquito coast by the stereotyped representations which serve to gild every alleged acquisition that he makes? If so, we must add rare greenness to his other qualities. What tecomes of his lands in the interior of Nicaraugua," of which at last accounts he was about to take pos-

According to the statement in the Post, of yesterday, Col. Kinney has opened a correspon-dence with the President of Nicarauga, Estrada. The Col. wrote to His Excellency, assuring him that he was not a fillibuster but a mar of peace, with peaceable intentions, whereupon the President replied-

GRANADA, 24th August, 1855.

H. L. Kinney, Esq.—Sir: Your having been publicly announced as a chief of fillibusters, has aused us to adopt the convenient measures of precaution. However, as in your favor of the 31st of last month, which I received yesterday, you affirm that you entertain no hostile intentions toward Nicaragua, but, on the contrary, wish to come to a settlement which may prove of mutual benefit, I am agreeable, at your request, to hear you through a person representing your expedition, with which object you may commission any one you may think proper.

If, as you state, you possess any rights which ought to be acknowledged in this country, the governments holds it as a fundamental principle to welcome every peaceful man, and to do jus-tice to him who has it.

I am, sir, your obedient servant, J. MA. ESTRADA.

DIFFICULTIES IN THE SURVEY OF WASH-INGTON TERRITORY .- By a letter from the surreyor general of Washington Territory, dated the 24th of July last, we learn that the extension of the fifth standard parallel line could only be made west 24 miles, in consequence of impassable obstructions. It was contemplated to passable obstructions. extend this parallel west to the Pacific ocean. The deputy surveyor who has charge of the work was 29 days in completing the 24 miles returned to the surveyor general's office. The surveyor general has released the deputy sur veyor from his contract, and says the survey is

not needed at the present time. The difficulties are stated to be: 1st. The region passed over presented one unbroken, dense growing amid the undecayed trunks of One large growth of another prostrated one. firs, cedars, and pines had been prostrated years since by the wind; another similar one had grown up in its place, and the interstices were filled with a very dense undergrowth. 2d. Sup-plies could only be obtained from the eastern part of his work on horses, as there is no settle nent six miles west of his starting point. 3d. Upon reaching the 24th mile, the deputy survey or encountered the southern extremity of the Olympian range of mountains, and the country was very rough, rocky, filled with canons, &c., and affording no subsistence to his packhorses, which became exhausted from inanition.

Foreign Items.—The Stuttgardt correspondent of the Moniteur says: "In view of Russian reports which almost represent the affair as a victory, it is not without interest to find the truth in a Russian journal. The Finlands Allmanna Fidning, in an article reproduced by the Wurtemberg journal, the Beobach-ter, says: 'All that could be destroyed at Sweaborg has been annihilated; in fact, it was advantageous to attack, not the granite fortifications, but the city, and that is burned, with its immense magazines; the watch-dog remains, but he has no longer a house to guard. What was most remarkable was the inefficiency of the fire of th Russians. A ship-of-the-line, which might have disabled the gun-boats of the Allies, was content to disappear behind the forts."

The King of Prussia has sanctioned an extension till September, 1856, of the free importation of corn and flour, the right of which would otherwise expire on the 30th of September, 1855. The King of Denmark has published his royal

DR. KING'S

DISPENSARY.

DR. A. KING, a practitioner of New York for the last twenty-eight years, has opened a Dispensary on Market street, between First and Second, nearly opposite the Bowless House, for the treatment of Private Diseases, such as Gonor-hoes, Syphilis, and all diseases of the skin and other derangements growing out of naglect or imperfect cure. His long experience and success enables him to act with confidence. All those who may confide their cases to him may rest assure of having the disease effectually cured and every vestige of the difficulties perfectly eradicated from their constitutions. Stratcruzes of old or recent date effectually cured in a few days by an operation which causes no pain. Where a stricture exists, general derangement of the whole constitution must ensue, a continuance of which will bring on a train of symptoms to be dreaded, and will undermine the constitution and cause premature old age.

SEMINAL WEAKNESS.—Particular attention will be given to this disease and all the gons-quences growing out of it, brought on, in many cases, by the destructive habits of inconsiderate youth and excessive includence of the pu sions, which undermine the constitution, rendering the subject unfit for either business or society, and causing premature old age.

LATEST NEWS.

The races have been postponed till tomorrow on account of the heavy rains, when they will open with a two-mile race.

Officer Kirkpatrick arrested on Saturday a man named James Connelly as a suspected felon. He wears a black coat which is much too large for him, and Kirkpatrick is confident it was stolen. He refuses to tell where his baggage can be found. Those who have lost any clothes are requested to call at the jail or in court to-morrow morning.

China.—We have no responsible official to look after our interests in China. Our Minister, Mr. McLaue, has left for Paris, and Dr. Parker, Secretary of Legation, is some where "down East." Meanwhile, our Consul at Shanghae having failed in negotiating with the Chinese officials respecting certain losses of American merchants, Commodore Abbott had despatched Capt. McCluney, in the steamer Powhattan, to bring them to terms.

The Evening Post states on the authority of Senator Wilson, that a deranged man, name unknown, but believed to be a citizen of Williams. burg, jumped from the steamer New World, on Saturday morning, on her passage from Albany.

The boat did not stop and no effort was made to rescue him. It is believed he was drowned.

There was much excitement on board the boat in consequence of the occurrence. It is said the engineer of the boat was notified immediately. It has subsequently been ascertained that the man's name is Jas. Heatherly. He was delirious from the effects of fever.

Three deaths from yellow fever occurred on board the steamer Crescent City on her passage from Havana.

Boston, Sept. 17.

The returns from 384 towns of Maine give Morrill (fusion), for Governor, 48,700; Wells (Dem.), 45,200; Reed (W.), 10,200. No fusion and Republican Senators are elected. The House stands 61 Republicans, 67 Democrats, and 21 Whigs. Two districts are to be heard from; they are probably Democratic.

NEW YORF, Sept. 17. The U. S. sloop of war Cyane arrived to-day

from Pensacola. The Captain of the Crescent City has been held to bail in the sum of \$5,000, for violation of the Quarantine laws, and the vessel has been ordered down again.

The Herald's Washington correspondent states that on Wednesday, while the Cabinet was in session considering the question of the Danish Sound dues, the President received from Kansas a mem rial signed by a large number of the earliest settlers of the Territory, protesting against the eager haste of Shannon in declaring himself in favor of slavery. The memorial was immediately given to the Cabinet for action

The 8th anniversary of the capture of the City of Mexico by Gen. Scott's army was celebrated here yesterday. During the day a so-ciety was organized, christened "The Montezu-ma Association." Com. Perry chosen Presi-A dinner was also held at Delmonico's, at which were present a large number of officers who figured in the Mexican war. Capt. Burnet Ward presided. Among the volunteer toasts was one by Col. Ramsey, greeting Com. Perry the future President of the Republic.

The correspondent of the Daily Times, from

Texas, says the expedition ly organized by Capt. Henry against Mexico had been partially abandoned, and many of the soldie's had returned home. The last accounts state that Capt Henry had only about 40 or 50 m n, and there was a doubtful rumor that this party was also captured by Gen Woll, or Indians under Wild Cat. They had been previously informed by both parties in Mexico that their services were not wanted.

Draithwaite's Retrospect for July.

To medical men the great advantage offered by the Retrospect is its embodying in a confined space all the cream of Medical periodicals, sparing them the labor of wading through many velumes filled with much trivial and ununteresting matter, which must be perused in order to reach what is really valuable, and supplying them with a key by the aid of which they may find precisely what they require in any of the scattered publications of the day. To families and private individuals it is scarcely less valuable than to the professional reader, since, although purely and in the highest degree scientife, its contents are yer presented in a style so simple and unaffected that they are comprehensible to any ordinary intellect. ATHE Studies and Teaching of the Society of Jesus at the I time of its Suppression—1750—1753." Translated from the French of M. I. Abbe May nard. We have just received a few copies of this new work, and we think many persons in this community might read it with great profit.

"An Inquiry into the Principles of Church Authority, or Reasons for recalling my subscription to the Royal Supremacy." By the Rev. R. J. Wilberforce, M. A., late of the English Church.

"The Blassed Sec.

cy." By the Rev. R. J. Wilberkorce, st. A. Mays of God."
Ish Church.
"The Blessed Sacrament, or the Works and Ways of God."
By Fred-rick William Faber. D. D., author of "All for Jesus." "Growth in Holiness," &c.
We have also received a few copies of "Butler's Book of the Roman Catholic Church." a work eminently suited to disabuse the minds of the well-disposed in regard to the Temporal Power of the Pope and other equally absurd questions which have lately agitated the public mind.

Chickering's Parlor Grand Pianos,

BRAINARD BROTHERS.

Jacob's Block, 74 Fourth street, near Main.
The Parlor Grand is the very perfection of the wants of professors, amateurs, and other wants of professors, amateurs, and other swho may object to the great size of a Full

Grand.

The unique and beautiful style of this instrument and its perfect fitness for the parler are commendations that will not apply to the ordinary Grand Piano. For, while it combines the tone, power, action, and appearance of a Full Grand, it has the delicate touch of chickering? Square Pianos, acknowledged by every one superior to any other, and, though of seven octave compass, is still smaller in size than the semi-Grand Piano of 6% octaves, as it occupies but little more space than a 7 octave Square Piano.

The peculiar and compact construction of the Parlor Grand, an invention of the late lamented Jonas Chickering, is a sure guarantee of its durability. And the complete success of this new and truly beautiful instrument fully sustains the reputation of its inventor and manufacturers.

We have already sold several of these instruments in this city, and, to meet the increased demand for them, have arranged for a constant supply.

To these superb Piano-Fortes we invite the attention of the Parlor Grand before purchasing. They are made only by Chickering & Sons, and can be had only of ourselves in this city, all jabb Jacob's BRAINARD BROTHERS, als jabb Jacob's Bleck, Fourthst., near Main.
